IV. INTERNATIONAL “FISH” THEMED GROUP EXHIBITION

31.08.2023- 07.09.2023

SİNOP

Dear participants,

Fishing bans are applied throughout the country in order to protect fisheries resources, which are of great importance for the economy of our country and Sinop Province, by taking into account scientific, environmental, economic and social issues, to convey them to future generations, to hunt, process and evaluate the fishery products in our seas without being consumed. Fishing is prohibited on certain dates, especially in order to keep the fish population in our seas in balance. The lifting of hunting bans and the opening of the fishing season are held in Sinop with celebrations in a festive atmosphere. In these celebrations, we wanted to make people think, feel, raise awareness and include art for those who have something to say.

It is planned to hold an International Group Exhibition with the theme of “FISH” on 31 August-7 September 2023 with the cooperation of Sinop University Fine Arts and Design Faculty Traditional Turkish Arts Department, Handicrafts Association and with the contributions of Sinop Governorship, Sinop Municipality, Sinop Port Authority, Sinop Provincial Culture and Tourism Directorate, which are the external stakeholders of the exhibition. We are very honored to be with you and to host you with your works in our exhibition, which we plan to hold for the fourth time with the participation of domestic and international artists who are experts in their fields.

On behalf of the Exhibition
Organizing Committee

Prof. Dr. Nihat DALGIN
Rector
